

CALL FOR APPLICATIONS
26 / 003.86 / ASSA-AC / EFO-CCAA of 09 JUL 2026
for the selection of thirty (30) scholarship recipients to pursue a Specialised Master's in Aircraft Maintenance and Recycling (CAMRA)

As part of its mission to support the sustainable development of the air transport industry, the the Central African Air Navigation Safety Agency (ASSA-AC), in partnership with the Cameroon Civil Aviation Authority Training School (EFO-CCAA), the European Vallair Group, and the National Advanced School of Engineering of Yaoundé (NASEY) of the University of Yaounde I, is organising a competitive examination to award scholarships for admission to the fourth batch of the Specialised Master's in Aircraft Maintenance and Recycling (CAMRA), offered at EFO-CCAA.

This training programme, open to nationals of the member states of the Economic and Monetary Community of Central Africa (CEMAC), aims to address the shortage of qualified technical staff within its member states in the short and medium term, both in the fields of safety oversight and in the industry.

Graduates of this high-level technical and practical training programme, which will last a total of twelve (12) months, will be qualified to hold managerial positions in organisations such as:

- Aircraft Maintenance Organisations;
- Aircraft dismantling organisations;
- Continuing Airworthiness Management Organisations, operating independently or within an airline;
- Civil Aviation Administrations (Civil Aviation Authorities, Ministries, Accident Investigation Offices, etc.);
- All other related organisations.

The CAMRA training program is facilitated by experienced instructors from the aviation industry (pilots, engineers, and aircraft mechanics), lecturers from the National Advanced School of Engineering of Yaounde (NASEY), and other academic in the fields of maintenance and production.

Classes will begin in **October 2026** and will run for twelve (12) months at the Cameroon Civil Aviation Authority training school (EFO-CCAA), located at the entrance of Yaounde-Nsimalen International Airport, and in the premises of the National Advanced School of Engineering of Yaounde (NASEY).

Trainees will carry out a professional internship during their training in a CEMAC-based company in the aviation sector.
